Retransmitted with compliments.

(1) Orders have already been received from Government that local contractors should as far as possible be encouraged and this will be kept in view by the Sanitary Engineer, as he has already been instructed in this matter As regards supervision and inspection by the local Assistant Engineer, there are at present five sub divisional Officers attached to the Bureau so that there has been localisation in the inspection and supervision If the P W D Officers are expected to inspect the works that are being executed by the Bureau of Sanitary Engineering under the Executive Engineer and the Assistant Engineer of the Bureau, there is likely to be administrative troubles As there is sufficient supervision at present by the formation of Sub Divisions much better work is being done at present

Dep

NOTE REGARDING THE DRAINAGE SCHEME OF CLOSEPET TOWN

The first and second stages of the drainage works have been executed For the first stage an estimate amounting to Rs 2,905/- was prepared in this office and the same has been sanctioned by the Director of Public Health in his letter No C 1705-2 dated March 18 1936

The Municipality had started work on this, and after executing works to the extent of Rs 400/- this office was requested to complete the work and the municipality paid a contribution of Rs 600/- The work was entrusted to one Mr Boriah Contractor of Closepet who was recommended by the President, Municipal Council, Closepet and the outlay incurred upon the work is Rs 769-8-0, out of which Rs 600/- is adjusted towards the municipal Contribution and the rest is outstanding under O B

For the second stage of the work, an estimate amounting to Rs 1,965/- was sanctioned by the Director of Public Health in his letter No C 2216-4 dated April 27, 1938 The work was entrusted to an engineering graduate contractor at the lowest tendered rates and the report in the matter has been submitted to the Director of Public Health in this office No 1027- dated March 18, 1938, copy of which is enclosed herein for ready reference Against the total outlay on this work a sum of Rs 756-4-6 has been debited to the Government grant, while against the municipal contribution of Rs 800/- the outlay booked is Rs 431-9-11 The final bill of the Contractor is not yet paid and arrangements are being made to close the work after payment of the final bill

Letter No 3742 dated March 18,1938 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the President, Town Municipal Council, Closepet

---

Re Drainage Works in Closepet town

With reference to your letter no M & L 150/37-38 dated 11th March 1938 intimating that you cannot countersign the estimate forwarded to you from this office etc , I have the honour to inform you that the estimate was ppepared by the Sub-Overseer taking the opinion of the Sanitary Inspector as regards the provision of drains in required places The Assistant Engineer inspected the place and found the provisions made were quite suitable And as regards the L S provision of Rs 500/- for the outfall works, details will be worked out only during execution as per actual requirements and the same will be furnished to you

As regards entrusting the work to an outsider etc , I wish to inform you that this office is not aware of any promise having been given that tenders would be called for <u>amongst local contractors only</u> The usual practice of calling for rate lists was adopted and individual notices were sent to local contractor e g Messrs Boriah Hutchappa and Purushotam Naidu It is regretted that a copy of the rate list was not sent to the President though it is not obligatory

As stated in your letter the comparative rates of the local contractors were considered and the work is entrusted to an Engineering Graduate Contractor at the lowest quoted rates, agreeable to the Government Orders requiring encouragement being given to unemployed Engineering Graduates who want to take up contract works

Under these circumstances, it will be difficult to reverse what has already been done in this direction

If the estimate is not returned duly countersigned it may be too late to work out the grant as desired by the Government

Under these circumstances, I request you to return the estimate duly countersigned
